

MARYLAND DISTILLERS GUILD

The Maryland Distillers Guild was founded in 2015 to amplify the energy of the state's modern distilling industry. Members join together to encourage the high-quality production of spirits in Maryland, the use of local ingredients, recognition of the Maryland distilling industry, and advocating for more favorable regulations and laws.

Goals for 2017

Government Affairs. We continue have an ambitious legislative agenda, filled with improvements, expansions and new opportunities for Maryland distilleries. The Guild is also working with state and local agencies to lessen regulations.

Marketing. The Guild is developing a new website, which will launch in March. We'll be increasing our social and traditional media activity to build awareness of the resurgence in Maryland distilling.

Events. We are organizing and hosting a number of events to promote Maryland distilleries and their products.

Education & Meetings. The Guild will meet 4 times in 2017 to set policy, discuss priorities and learn from guest speakers and fellow Guild members.
